

Session begins January 29, 2018

- 104 Hours of Classroom Training
- Practicum & Job Placement Opportunity
- NO COST Class Tuition or Fees
- No Residency Documentation Required

The training is designed to provide you with basic, hands on skills and knowledge that you will need to start a career in health care.

You will learn to provide care to ambulatory elderly patients in their homes. This non-credit program emphasizes basic nursing needs, safety considerations, and nutritional needs for older adults. This course is designed to help jump start your career in health care!
